CCR No. 96-0356B	Logged Date	Rev. B	Request Type CCR
Priority Routine <input type="checkbox"/> Urgent <input checked="" type="checkbox"/> Emergency <input type="checkbox"/>	Affected Release		Change Class II
Title (description) Additional Modeling Server for Network Simulation...(etc)			
Documents Affected VCATS Workstation Summary		Source Nos (RID, NCR, etc.) or Tech Reference	
RTM Change <input type="checkbox"/> Start New Baseline <input type="checkbox"/>			
Problem Original CCR has been changed to make sparrow the machine that will be loaned to Hal Brackett to do network modeling until the upgrades to his SPARC 1000E arrive. To give him the memory he needs in this machine, several changes have to be made, and additional memory can be added to oriole and epsrver.			
Proposed Solution All changes are noted on the attachment. Be sure to provide serial numbers for all of the simms that are moved to EDS, and to check out and check in the "spare/loaner" simms" with Craig Johnson. The addition of the memory into oriole and epsrver is not that urgent...coordinate a time to do this with Keith Bryant.			
Impact Analysis: Organizations Affected: BOO <input type="checkbox"/> Contracts <input type="checkbox"/> ESO <input type="checkbox"/> FOS <input type="checkbox"/> M&O <input checked="" type="checkbox"/> QA <input type="checkbox"/> Rel. A <input type="checkbox"/> Rel. B <input checked="" type="checkbox"/> Rel. SPARROW

- 1) remove all but 2 of the 16 MB simms
- 2) Reuse 8 as shown above; place 2 into loaner pool with Craig Johnson
- 3) add 10 32 MB simms from recent purchase (6 had been intended for EPserver and 4 were purchased as spares/loaners)

Total: 368 MB
